

## ONLINE NETWORKING BINGO

Use this to connect with colleagues when you meet or chat online. Ask them a specific question based on the items below. Have they broken a bone? If so, write their name in that box. If their answer is no, you can ask them another question next time. Then let them ask you a specific question also. You can also use this at the beginning of a group meeting to break the ice and get connected before getting down to business. **Every name on your card should be from a different person.**

If there's time, share a story related to your answer if you have one, and take this as a chance to learn something more about your colleagues and share something about yourself.

Depending on your set-up, your organization may have prizes for completing the whole card or completing a line. Talk to the person who distributed the card to find out.

Has visited South America	Has two or more sisters	Has broken a bone	Likes going rock climbing	Is in the process of earning a degree
Has run a marathon	Speaks Spanish	Has lived in a different country	Has seen a moose in the wild	Has lived in the same country their whole life
